AN ADDRESS TO THE

Fellow Citizens: You know the following facts:
That in order to prevent the United States Sonate from continuing to be controlled by corporate interests, it is necessary to have the United States senators elected by the people, instead of the State Legislatures;
That to accomplish this, it is necessary to have an amendment adopted to the United States Constitution.
That the Sonate, as long as it is elected as it is a present, by the State Legislatures, will not vote, for such an amendment:
That it has already two or three times refused to pass a bill providing for such an amendment, although the House of Representatives had previously passed such bills?
That the only way to obtain senators.

Such bills:
That the only way to obtain senators who will be any to vote for such an amendment is by nominating them in a primary, and thus binding the State Legislature in its choice:
That the only way by which the people can at present speak their choice is by a primary election;
That Mr. Martin and bis supporters have always up to the last State convention done overything they could to prevent a primary election for United States schators;
That a man being upon the eye of his

schators;
That a man, being upon the eve of his own candidacy, and the party having pledged itself to the principle, cannot arouse any confidence as to his advocacy when he only gave a reluctant consent at so late a day under such circumstances:

any universities that any universities it inces; That, on the other hand, Governor Monague, for years in public addresses, and all and the season of the sea

feelings are not with you.

From these facts you are justified in believing:

That the defeat of Governor Montague and the success of Mr. Martin would be used as an argument by the party managers in alleging that the people do not desire such primary elections;

That that argument, together with the visites of the primary, would result in the party of the primary, would result in the party managers abolishing primary elections for United States senators and State officers;

That if you should yote for Mr. Martin, and he should by any possibility be non-inated, you would have helped to take away the greatest safeguard which the people now have as to the selection of the factors.

That this permanency in Virginia would read the same course of the people in the safe that the same course of the people.

It is, therefore, manifest to you that in the coming primary the profession of preference as to the quadidates is not alone involved.

But that the important principle of the people in wing the right to select direct which same course and the same of the people.

the part will most likely bring to success those important measures—Governor Montague important measures—Governor We desire to say one word about a small matter. Den't pay attention to the small matter. Den't pay attention to the briagsing of the friends of the other candidate. It is a mere part of the game. They are so wild as to be claiming some of the covernor's most carnest and active supporters. Such conduct show wadness, not strength. Talk will do no seally supporters. Such conduct show weatness, not strength. Talk will do no seally supporters. Such conduct show the vectory is outs. Do not vive voce, the vectory is outs. Do not be discouraged by the frauds in the last primary, you know that the election officials indicted were not friends of ours. We have reuson to believe that new judges will be appointed for the commis primary. All we have to do is to cast the votes. That we can do if we do our duty.

A desperate effort is being made to swap off our candidate in order to gat a Martin vote. Do not be deceived by this, but vote for Governor Montague, MONTAGUE CLUB OF RICHMOND.

Allied With Slemp Faction.

It is understood that Mr. Lowry is allied with the Slemp faction and has been for some time. He has been one of the fighting Republicans who have demonstrated that they can win in elections before the people. Ever since the resignation of Capiain Rogers was asked for, Mr. Lowry has been most prominently mentioned as his successor. While the friends of the retired collector cherished the hope up to the last that he might be reinstated, it was regarded as but a slender hope.

While no announcement has come from Mr. Lowry directly, it is generally believed that he will make few changes in the personnel of the office force, practically all of them being identified with the Slomp faction, now dominant in the party in Virginia. The deputies have done their work faithfully, if the official reports of the revenue agents count for aught.
